Chateau

Our Chateau Collection is an opulent range of solid oak furniture derived from C18th French designs. Our subtle changes and smooth flowing lines ensure it remains suitable and popular today.

Mottisfont Collection

A collection of reclaimed pine furniture which, in our opinion, exceeds the standards of most ranges in its class. It is supplied with wooden knobs or metal handles. All drawers are dovetailed and mortice & tenon joints are used on all doors. This range has products which are practical & pleasing to compliment any home or office.

Greenwich Collection

This beautiful collection of furniture is made from solid Ash and finished with elegant steel handles. The grain is wonderful, full of character and the finish is a natural soft sheen lacquer highlighting all the qualities of this lovely wood.

Mottisfont Collection - Painted

Our entire reclaimed pine range of furniture "The Mottisfont Collection" is available painted cream or white and with wooden knobs or metal handles. We have introduced 2 Farrow & Ball colours, an olive green and a pale blue. New designs include a Housekeeper's Cupboard, an Island Unit and a Butcher's Block. The standard finish is mildly distressed and we leave tops and knobs as a waxed finish to balance the overall appearance. Oak tops are available instead of pine.

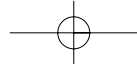

Santana

This rustic and characterful range of furniture is made using reclaimed oak. It has a wonderful deep patina finish which brings out the grain of this lovely old timber. It is very solid, chunky furniture which will look great in a Thames side penthouse or C17th country cottage. It is finished off with attractive metal handles. See its sister range the Brooklyn collection which is a more traditional design with antiqued brass handles.

Leather Range – Tubs, Dining Chairs and Cubes

Avignon

Crafted from Solid American Oak the Avignon collection of Oak bedroom furniture is combined with a unique blend of Acacia solid wood internals to create an aged appearance. This range represents excellent value for money.

Brooklyn

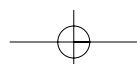

This rustic and characterful range of furniture is made using reclaimed oak. It has a wonderful deep patina finish which brings out the grain of this lovely old timber. It is very solid, chunky furniture which will look great in a Thames side penthouse or C17th country cottage. It is finished off with attractive brass handles. The Leather Range - Sofas

Our sofas are made using hardwood frames, traditionally jointed to create a very strong frame designed to last a lifetime. The seat platforms are finished with top quality Pirelli upholstery webbing designed to improve the comfort. Top quality upholstery foams are used and seat cushions are made with coiled springs making them extremely comfortable - they never need plumping!

All Leather is thoroughly checked to ensure that the very best part of the hide is used. It is carefully prepared, then stretched and fitted to the frames. Each of our sofas go through a rigid quality control procedure at each stage to ensure they are in tip top condition ready for you to enjoy.
